

REFERRAL PROGRAM

JUST FOR YOU

As our client, we understand the time, energy and finances you invest into having your property restored. And as any company wants to grow, what better way than to continue building the relationship and work directly those who have had great experiences with us by helping their friends as well. So we've got your back! We've developed a referral program specifically designated just for you! Whether you have friends or family in your neighborhood, or miles away, we would love the chance to serve them as we have you. They do have to be in the vicinity of DFW & surrounding region for this to work. Oh, and this offer doesn't expire! I'm still here in 50 years, I'll keep my word true. There is no pressure, or signup contract for this to take effect.

HOW IT WORKS

Whether it's a residential or a commercial property, for each one you refer, we'll commit to pay you a small fee per property property if that property owner chooses us as their contractor to renovate their full roof, whether through retail or insurance claim. All you need to do is set us up with that person, whether you give us their contact information, or you have them contact us personally (preferably your property consultant directly) and we'll go from there. If we find damage on their property and they choose us to replace their full roof, we will reach out to you to inform you of their decision. It's important to know they must choose us as their contractor for your referral fee to take effect! Also, please note, if that same property owner has us restore multiple roofs of theirs, there is a limit of 3 total properties for that individual that we can pay you a referral fee for. Your fee will be released AFTER we've receive the property owner's final payment. Second hand recommendations do not qualify for a referral. You must make the contact to set up inspection.

FEE OUTLINE

Upon completion of the final project, we will send you a referral fee in the amount of **1% of the total project budget**. The larger the project, the greater the fee.

Brandon Esser
Owner

"As a contractor in an industry that chases the next paycheck or door to door contract, my heart is to become the one whose name is known around the region, earning trust and building long lasting relationships and connections. When I started in this industry, my standards were extremely different and knew it would take time to build momentum going against the stream. But the Lord told me "A good name is above riches". So my attention focused on building relationships through a high quality experience, rather than chasing the next contract and paycheck. After 4 years of paddling against the current, the Lord has brought me nearly 99% of my clientele through people just like yourself, over 400 people. If you've had a great experience, consider partnering with me to change the standard on what a homeowner should see in their contractor"
